

CUSTOM MOULDING

CUSTOM MOULDING

Trust RPC to deliver your custom designed pack.

TRUST

That's what embodies the relationship between a brand and its consumers.

And it's what characterises the successful development of a new custom-designed pack.

As the brand owner, you need to be certain its image and reputation will be properly conveyed by its packaging.

You need a packaging manufacturer with the creative flair to meet both marketing objectives and practical considerations.

You need a manufacturer with the expertise to select the right material for the pack and the ability to produce it cost-effectively and in line with your own packing and filling requirements.

You need a packaging company who understands the commercial necessity of launching on time and on budget.

You need a company with the unmatched design pedigree of RPC.

TOP BRANDS PLACE THEIR TRUST IN RPC

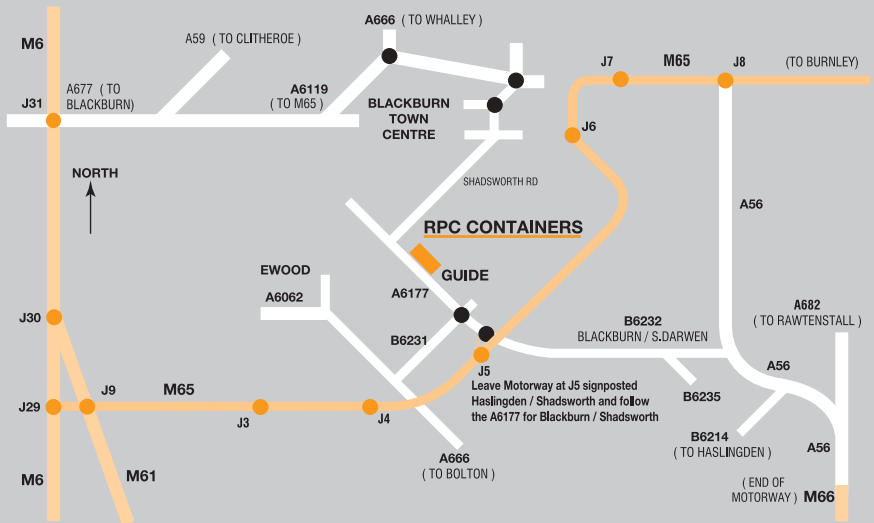

When you entrust your custom-designed pack to RPC, you are benefiting from a wealth of experience that over the years has been responsible for many groundbreaking designs. And from award-winning design teams who ensure that your pack is not only eye-catching but also fit for the purpose.

With a wide choice of technologies and materials, we'll find the perfect match of product and pack. And our dedicated customer support teams will be on hand to guide the project to its successful conclusion – from initial concepts through development to launch.
